Thanks for staying so long

Gregorio D'Agostino – Project Coordinator (ENEA)

Roma "Piazza di Spagna - 29 Marzo 2012

Once upon a time in Italy...

Salvatore Tucci (Univ. Torvergata) sommoned the first convention: few people in the Telecom Italia dungeons.

Tommaso Palumbo (CNAIPIC) suggest to include XP's.

Emiliano Casalicchio, Enzo Fioriti and myself wrote down the proposal, based on original ideas in the meetings.

Sandro Bologna phoned me to say: “Projet is accepted, will you coordinate it?” I gave the wrong answer :)

Negotiation, kickoff meeting, the “rotary” rule etc Final conference.

It is not over: exploitation, disseminiation, final report, ADMINISTRATION STAFF.

We are all Italian

Advantages

- *we could speak Italian (improves communication)*
- *we could meet easily (improve human connections)*

Disadvantages

- *Despite our efforts, the perspective may suffer from some bias.*
- *End Users we where able to contact were basically Italian.*
- *Audience at our final conference was mainly (85% Italian)*

Highlights of the activities

ICT perimetering

Physical and IP analysis

Application Analysis

*Methodology assessment and Metric definition
Holistic Approach (NITEL - R. Setola)*

Qualitative Research

Dissemination

Conclusions

*A **Methodology** for interdependence modeling and **measuring** has been introduced.*

Questions emerging during the work are more than those that we have (or pretend to have) answered to.

*Several **questions are still open**, as emerged also from the Round Table and they represent dwelling fascinating issues.*

*We hope our **publications** will impact on the scientific community; but the real success of the project would be the adoption of our methodology by **Public and Private Organizations**.*

Last Recommendations

All presentations will be made available at MOTIA site.

A summary of the round table and comments from the audience will be also be made available.

The Final Report, the Exploitation activity report and all further Motia publications will be also available.

To receive a printed version of the final report please send an e-mail to motia@enea.it

Thanks for Participation

Thanks are due to all participants,

*in particular to the **invited Speakers**,*

*to the **Authorities** and*

*to the organizations that have provided their formal **Endorsement***

*to other **Institution** that have friendly followed the works of the project:*

ABI-Lab, AIIC, ARPIC, Booz & co, DGSEC, ENAV, ENISA, Fondazione Bordoni, EUROCONTROL, EU RISC, ICANN, NITEL, OSN, Poste Italiane, Protezione Civile, Selex-SI, THALES, Università “Campus Biomedico”, University of Roma I “La Sapienza”, University of Roma II “Tor Vergata”.

Personal Thanks

It was my privilege to coordinate the project.

I thank all the participants and partners.

A special thank is due to Sandro Bologna that was the initial project manager and contributed with his long experience. I do consider him a Mentor.

Thanks to all partners' administrations.

My special thanks to Clara Massari and Iole Viccica.

MOTIA FINAL CONFERENCE
